**Notes and comments
by
Dennis Gross**

Thanked all involved for their help with the Jeff Miller workshop.

Discussed club activities and workshops using speakers. The majority of members at the meeting seem to want to continue with them, even if the club paid for some of the fees.

Presentation By: - A last minute change in the program from what was listed in the newsletter.

The program was a slide presentation by Walt Black on historic woodworking tools and machines in a museum in New Zealand.

Show and Tell

Two guests attended our meeting and decided to become members. They are: Steve Gage from Girard - He has been a woodworker for 20 yrs and likes to make furniture.

Scott Tucker from New Berlin - Scott has just starter woodworking and likes to make boxes and small furniture.

NOVEMBER PROGRAM

Was on a slide presentation showing a museum collection of tools and machines.

By Walt Black

SHOW AND TELL

This was one of those programs you had to be present to view the slides to get the full appreciation of the numerous tools and machines in this museum.

Walt said he has been there many times and became friends with the owner. This was a private collection in New Zealand, that the gentleman started as a hobby which grew to a large collection housed in a large building. Walt went over many of the items explaining their uses or how the machine worked.

Computer problems cut the presentation short but the many slides we saw were very informative.

Walter Black with home made parting tools made using an old band saw blade from Ralph Winch's saw mill

Dan Schmoker with a home made tool used for parting the back of a turned bowl.

Walnuts cut into wafers and mounted on a board for display by Dan Schmoker
