STILL LOOKING FOR MISSING LIBRARY VIDEOS

We are still trying to locate the following videos missing from our library. We need everyone to check their pile of stuff to see if you have one of these and bring it to the next meeting. If you can't make the meeting, call Ric Thompson (217-415-5568) and he will arrange to pick them up from you. We would really like to bring our library up-to-date and available to all of us. Thanks for your help!
